

**pwsa**

prader-willi syndrome **australia**

The PWS Medical Alert Kit is designed as a resource to increase awareness and provide information for medical professionals who are caring for people who have PWS.

The PWSA Medical Alert Kit includes the following:

- **A PWS Medical Alert Booklet (Australian Edition)** for **medical professionals** who are caring for people who have PWS. The Medical Alert Book details important considerations for routine or emergency treatments
- **A PWS Medical Alert Wallet Card which** can be easily carried in a wallet or iPhone holder and provides **immediate and vital information about PWS in cases of emergency.**
- **A PWS Hospital Emergency Admission Introductory Letter .** This letter is to be given to the **hospital emergency staff** at the point of **admission** to provide information about the management of PWS during their stay in hospital.

If you require a PWS Medical Alert Kit for yourself, for other family members, your GP, school, supported residential house or day program staff please contact PWSA via.
